Alexander House Financial Services Ltd
Review

*Alexander House Financial Services Ltd* (AHFS) is a UK investment advisory firm with local advisors all over the UK. The firm was *founded in 2013* by Nick Kelly, Jane Hodges, and Rod Reed who are Independent Financial Advisers (IFAs) and Chartered Financial Planners.

**Key Factors that Enabled This Firm to Rank as a Top 2016 Wealth Advisory Company in the UK**

Listed below are some features of this firm that we believe make for a quality financial adviser.

**Flexible, Upfront Fee Structure:**

At AHFS, your fees are *communicated upfront*, including the breakdown of services for which you’re paying. If you wish to undergo the formal review process with an AHFS adviser but do not wish to implement their recommendations, you are charged a flat fee.

However, should you seek to continue with AHFS after the initial consultation stage, you are charged according to the complexity of your financial situation and advice given.

To make it easier on you, AHFS also offers flexible payment options. ‘Ad hoc’ or ‘pay as you go’ advice is billed hourly or at a fixed fee. Retaining AHFS services to implement and monitor your investments mandates a retainer along with applicable specialist fees.

The ‘bespoke’ option is for clients with more advanced or complex financial affairs. It is comprehensive of AHFS’s range of services and is tailored to the client's individual needs.

**Fee for Advice:**
AHFS doesn’t charge for products they recommend or for commission received. Fees are paid to the firm strictly for advice, implementation, or both, depending on your decision to retain AHFS as your financial adviser.

Whether you choose to implement your adviser’s recommendations or not, you pay only for the initial review and advice given. You are not locked into a contract, and your fees are outlined clearly prior to engaging with AHFS in the report stage.

**Independent Nature:**

AHFS is independent, and as such they are not bound to outside interests when recommending products or services. Your money, not to mention the services for which you are paying, are not influenced by any persons or organisation that doesn’t know you or your unique circumstances.

**Customised Advice:**

Your AHFS adviser is concerned with applying only the right products and services to your situation. This means getting to know you within an extensive, formalised process designed to give your adviser every piece of information needed to deliver the best solutions.

The following graph illustrates the process your AHFS adviser takes with you to arrive at your tailored plan:

**Long-Term Design:**

As a firm, AHFS’s chief interest is in making you a customer for life. Naturally, should you choose to receive services on an ‘ad hoc’ or ‘pay as you go’ basis, your adviser is more than willing and happy to accommodate you.

Nevertheless, AHFS wants to make you happy enough that you consider employing their extended services. Moreover, these services are designed to meet your needs not just in the short-term, but in the long run through retirement and old age.

A full list of AHFS individual services, including breakdowns of each, can be found on the AHFS [Individual Services](#) page.

**Chartered Financial Planners:**
Having achieved Chartered Financial Planner designations means AHFS advisors are investment advisors you can trust. Being ‘chartered’ means AHFS advisors have demonstrated a stringent commitment to growth, continuing education, and the highest ethical standards.

Client Testimonials:

Nothing speaks to a firm’s success quite like the word-of-mouth provided directly from clients. With that in mind, AHFS hosts a dedicated Testimonials page highlighting the reviews from satisfied customers.

- Best Holistic IFA Planning at the Finance Awards

Serenity Review

Serenity is an independent financial adviser with offices in London, Lincoln, Pinner, Yorkshire, Cornwall, Nottingham, North London, Herts, and Edgware. The company uses a unique service approach, known as Financial Life Planning, to deliver clients a personalised, value-based financial planning experience. The approach is based on the research-based EVOKE (Exploration, Vision, Obstacles, Knowledge, and Execution) process developed by The Kinder Institute of Life Planning.

The firm’s fees are based on the level of service provided to a client. As fees are tied to each stage of its 4-stage advisory process, clients may opt to go through as many of the stages that they deem necessary, paying just for what they need.

For clients requiring ongoing, longer-term support and advice, Serenity charges a minimum advisory fee of £1500 + VAT annually. Unlike many independent financial advisers in the UK, though, Serenity does not insist that clients have a minimum threshold value of investable portfolio to work with its advisers.

In addition to traditional financial planning and wealth building support, clients who are looking for a UK independent financial adviser to offer unbiased opinions on other aspects of their financial lives, such as pensions, ISAs, mortgages, and private medical insurance, will find a great partner in Serenity.

Uniquely for independent financial advisers in London and other parts of the UK, Serenity also offers access to foreign exchange transactions through the FTT Global FX payments service.

Independent, Fee-Based Advisory:

Serenity is a UK financial adviser that offers independent financial and wealth planning advice to its clients. The firm delivers its services through four distinct stages, with fees charged at each stage. The stages of support required
are optional and based on individual clients’ needs for service. Serenity also offers an annual retainer-based fee structure for clients needing an ongoing relationship with the firm.

**Individualised Planning:**

As an independent financial adviser with offices in London and other parts of the UK, Serenity believes that it differentiates itself by focusing on creating individualised strategies for each of its clients. While money is a tool to accomplish many of life’s goals, the firm’s Financial Life Planning approach works to provide clients with a personalised “whole life” experience.

**Structured Financial Life Planning Processes:**

As one of the top-rated independent financial advisers in the UK, Serenity follows a highly structured 4-step process to address unique client financial planning needs.

The process, which is based on leading-edge financial and behavioural research, puts clients, their families and friends, and all of their goals and aspirations at the centre of the planning process.

**Experienced and Qualified Advisers:**

The company has a team of independent financial advisers that support clients in the UK, all of whom have the appropriate industry qualifications and credentials and are equipped with sound technical expertise to develop the most appropriate financial architecture for each client’s needs.

**Sound Investment Philosophy:**

As UK IFAs, Serenity’s advisers offer clients investment solutions based on a sound investment philosophy. The firm’s investments are guided by the belief that long-term investment success is a function of minimising investment-related costs, and that returns are proportionate to the risk that investors are prepared to assume.

Key to Serenity’s portfolio construction is the concept of diversification and the sound belief that any attempt to time the market always ends badly.
